DESCRIPTION

Dynamic, motivated, and disciplined Computer Science student with a passion for problem-solving and innovation. Proficient in various programming languages and frameworks, with a strong focus on web development. I am prepared to take on challenges and aspire to become a proficient professional in my field.

EDUCATION

- **Godavari Institute of Engineering & Technology (A) - 8.46 CGPA (2021-Till Date)** Rajahmundry, India
  Bachelor of Technology - Computer Science and Engineering

- **Oxford Junior College - 95.3 Percentage (2019 - 2021)** Narasaraopet, India
  Intermediate

- **Oxford School - 9.8 GPA (2019)** Narasaraopet, India
  High School

SKILLS

- **Programming Languages:** C, Java, Python
- **Frameworks and Libraries :** jQuery, React.js, Redux, Node.js, Express.js, Bootstrap
- **Database :** MySQL, MangoDB
- **Tools** : Git, GitHub, Postman, FireBase
- **Employability Skills :** Strong problem-solving abilities, teamwork, leadership and adaptability

CERTIFICATES AND CERTIFICATIONS

- 30 Days MasterClass on React JS – **Pantech e Learning**
- SQL Essential Training – **LinkedIn Learning**
- Typing Certificate (**65+ WPM, 97+ ACCURACY**) – **Ratatype**
- Java Programming **– Great Learning**
- Java Basic, Python Basic, Problem Solving Basic Certifications **- HackerRank**

ACHIEVEMENTS

- Solved **200+** problems on **LeetCode**.
- Developed over 6 projects specializing in **Frontend development** and 1 **Full stack web development** project (another one is ongoing), demonstrating expertise in building comprehensive and user-friendly applications.
- Served as **Class Representative**, coordinating activities and representing students.
- Contributed to enhancing the **Frontend design** at **Coding Ninjas** and providing content **Corrections** for **GeeksforGeeks.**

PROJECTS

- **Jewellery E-commerce Website |** Bootstrap, React.js, Node.js, Express.js, MySQL

  Developed a user-friendly jewellery e-commerce website with features such as filters, shopping cart, account management, reviews, ratings, delivery address management, coupons, and more.

- **Knowledge Portal (Ongoing) |** Bootstrap, MangoDB, Express.js, Redux toolkit, React.js, Node.js (MERN STACK)

  Developing a knowledge portal using the MERN stack, featuring academic essentials like previous year papers, important questions, and circulars, along with placement preparation resources including coding challenges, HR, and technical interview questions.

- **Budget Plan |** Bootstrap, React.js

  Developed Budget Plan, an expense tracker application that allows users to add, delete, edit, and mark expenses as complete, while also providing a balance overview.

HOBBIES

Walking, Stock market research and analysis, Listening music, Hanging out with friends and family, Playing Badminton.

LANGUAGES

Telugu - [Read, Write, Speak], **English** - [Read, Write, Speak].
